How To Use The Story Templates

Picture	Sentences
	

These 30 "Tell The Story" templates are fantastic for getting students to be creative and at the same time, use level appropriate vocabulary. Most stories have an obvious sequence but you'll be surprised by the twists your students will add.

Here is a suggested lesson delivery.

1. Put 5 pictures on the board or screen. Elicit student responses to connect the pictures and tell the story. Title the story. After, read the story together.
 2. Provide students with a template. Everyone or several can use the same template and compare after. Or, all can have a different one.
 3. Provide a time limit. Students write the story in their own words. Teachers correcting as needed and monitoring.
 4. After students are finished, put them in groups to share their stories together. What were the best stories? Share those again, as a whole class.
 5. Optionally, students can do a story as homework or extra work.
- There is a handy blank template version to use. Students can both draw the picture and write the story.
